

Cyberspace Comms Specialist

ROYAL AIR FORCE CAREERS

As a Cyberspace Communications Specialist, you will ensure that the RAF remains at the cutting edge of technology. You will work as part of a highly trained and skilled workforce that will be responsible for a wide variety of tasks; ranging anywhere from safeguarding our UK-based IT networks from intrusions all the way to establishing overseas networks and equipment for Deployed Commanders and Air Traffic Services.

TRAINING YOU'LL RECEIVE

Your career will start with a 10-week Basic Recruit Training Course (BRTC) at RAF Halton in Buckinghamshire. The course will prepare you for service life in one of the most respected military forces in the World. As well as fitness and military training, you'll also learn about the core values, code of conduct and history of the RAF, as well as its unique lifestyle.

SPECIALIST TRAINING

The next step is a training course at No 1 Radio School at RAF Cosford, near Wolverhampton: a first-class Microsoft and Cisco-accredited academy. This foundation course is around 37 weeks long and is designed to provide you with all the training, the skills and knowledge across the full range of specialisations you may be employed in.
