

“

Throughout this year there have been many challenges, especially the first few weeks because I was not ready for the big change. However, I have had a lot of support from the school especially the Teaching Assistants and my tutor and this has helped me to enjoy my time at KLB. Talking to my T.I.C buddy about my feelings whilst seeing Berkeley (the school dog) has helped me a lot too.

During my first few weeks I found it difficult to find my way around the school because it was so big. My Head of Year arranged for a prefect to show me around the school and take me to each lesson until I could do this on my own. I spend a lot of my free time in learning support with my friends. Now I am confident at finding my way around the school and I am enjoying my time at KLB.
